CAREER OBJECTIVE

Software developer with more than 3 year of experience specializing in building scalable web applications and backend Solutions. Proficient in Microsoft SQL Server, and .NET Framework. Seeking to leverage my expertise in full-stack development To contribute to innovative projects that drive business value.

CORE TECHNICAL SKILLS

Frontend Development: React, HTML, CSS, JavaScript, Bootstrap
Backend Development: RESTful APIs, .NET Framework, C#, Microsoft SQL Server
Tools & Practices: Git, GitHub, Debugging, Code Optimization

EXPERIENCE

ActoSoft, Full stack .Net developer *(*November, 2022 –Present*)*

- Developed and maintained scalable web applications using **.NET Framework**.
- Designed and optimized **SQL Server database schemas**, improving query performance and data integrity.
- Enhanced UI functionality using **JavaScript and jQuery**, resulting in improved user experience and engagement.
- Performed debugging, code optimization, and performance tuning to reduce application issues.
- **Collaborated directly with clients** to gather requirements, clarify business needs, and propose technical solutions for **new modules and feature enhancements**.
- Proactively researched and adopted **best practices and new tools** to improve development efficiency.

IT Hub Software Solution, Software Engineering Intern (January, 2022 – April, 2022)

- Designed **UI wireframes** using **Figma** and implemented responsive layouts using **HTML and CSS**.
- Created multi-selection features for filtering services on the website
- Integrated **SQL and MySQL databases** with frontend components for dynamic dashboards.

PROJECTS

News Blog *(React & API Integration)*

- Developed a responsive **news blog** application using **React** and integrated live news updates through **RESTful APIs**.
- Implemented features for users to filter news based on categories like business, sports, and general news.

ICoder *(Full Stack Project)*

- Built a knowledge-sharing blog platform using **SQL**, **PHP**, and **React.**
- Integrated user authentication with a database for login and registration, optimizing database queries for a **30%** faster response time.
- Users can ask and answer questions, facilitating collaboration in different tech fields

Sports Club Website *(Bootstrap)*

- Created a responsive sports club website using **HTML**, **CSS**, and **Bootstrap**.
- Built user-friendly layouts and optimized the website for mobile devices, enhancing accessibility and user experience.

EDUCATION

Gujarat Technological University, Shantilal Shah Engineering College **Gujarat**
Bachelors of Technology in Electronics and Communication Engineering
CGPA – 7.85 | *May, 2022*

CERTIFICATIONS & COURSES

- **React – The Complete Guide** (*Udemy*)

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Gujarati (Native)

HOBBIES

- Contributing to open-source projects on GitHub (demonstrates collaboration and continuous learning)
- Participating in coding challenges on LeetCode and Hacker Rank (improves problem-solving and algorithm skills)
- Writing technical blogs on web development (enhances communication and industry knowledge sharing)
  And Playing Table Tennis (helps maintain calm and stay energetic).
